Per Scholas prepares learners for tech careers through no-cost technology skills training and access to employer networks. **Over 17,000 graduates have launched successful careers in tech to date at more than 500 companies.**

Learn the fundamentals of End User Desktop Support, understand IT infrastructure, installing and troubleshooting operating systems, and fundamentals of networking. Get immersed in Active Directory, Image Deployment, ITIL with ServiceNOW, Office 365, and more.

After 12 weeks, you'll be equipped with the experience to fulfill a wide variety of entry-level positions in the general categories of IT support management and end-user services.

START DATE: July 25, 2022
APPLICATION DEADLINE: July 11, 2022
